Packaging	The material is filled in 25 kg polyethylene bags, packaged in cardboard boxes and delivered on a wooden pallet containing 30 boxes (net weight per pallet 750 kg).
Shelf life	36 month from date of production at temperatures, not exceeding +25°C in dry conditions. Exposure to the light has to be avoided. At higher temperatures or pressures, the granules tends to agglomerate. For this reason, the flowability of this product cannot be guaranteed.
Product Safety	Relevant safety data and references, as well as the possibly necessary warning labels can be found in the safety data sheet.

These raw material properties are typical and, unless specifically indicated otherwise, are not to be considered as delivery specification.
